We are happy to make available these trainings in advanced facilitation. As you can see from our training agenda, we have an exciting week of training planned. All trainings will take place in a retreat center atmosphere chosen to facilitate the educational learning environment that we seek to create. We invite you to spend a week this year enhancing and increasing your capacity to handle the steep and deep of facilitation.

Very individualized with a good balance of theory and practical experience. I loved the intimate nature and the individualized attention. The process did a good job at helping me learn new ways to process experiences and take a look at my own style.

Dennis Grove, MSW, Family Therapist

Excellent training! If you want to be really challenged to maximize the potential of your experiential/adventure education activities with clients, and maximize your effectiveness as a change agent, then take this course.

Roger White, Teacher, Rimrock Academy

I think that this training will be recognized as standard that advanced facilitators need to meet in order to conduct quality experience-based programs.

Michael Van Derwater, Senior Medical Screener - Pacific Crest Outward Bound

Training of this nature is much needed by facilitators to achieve better recognition for our field.

Jesse Russell, Program Manager - Obsidian Trails

It is an excellent training program.

Simon Lo, Experiential Training Director, University of Hong Kong
